in2digi D-JV-2 Series Digital Radio

DAB Antenna connector

Starting up Digital Radio Guide

On start up select **Audio Video** Menu from the touch screen button or from the hard key button

DAB Search	DAB3 Absolute	digital (Padio
Ensemble List	National	Auto-tune
Channel List	BBC DAB	1000
Subchannel List	Berks	
РТҮ		
Channel Information		
		Nav ())

On first power up press **Auto-tune** button to scan for any digital radio stations that have been recognised by the digital receiver.

During auto-tune/scanning this may take a minute or so depending on how many ensembles the DAB Receiver finds in that area. Progress can be seen by the percentage bar being displayed on the screen.

On the last line this will be 1 of XX that the search has found
